RE: Expresspay 3.0 Reader Certification
Product Name: Kiosk III v1.00
Firmware Version: v1.00

Dear Howard,

We are pleased to inform you that we are happy to recertify the Kiosk III v1.00 for Expresspay 3.0 using Firmware Version v1.00. This certification is valid for three years from the date of issuance.

This certification is based on there being no changes made to the terminal or firmware since the issuance of the original certification and will be based on the Letter of Approval with reference 300.FIME.13.IDTECH.KIOSKIII.141204.

The certification process addressed the acceptance of American Express Proximity Device capabilities.

Because the certification process cannot possibly test for every scenario, the discovery of any subsequent bugs or issues may require the correction and recertification of your software, firmware, and/or hardware.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Rose".
