VERSAKEY

POS KEYBOARD WITH BUILT-IN MAGSTRIPE READER

ID TECH's VersaKey features the enhanced 105/106 key layout maximizing the user's productivity. The VersaKey's embedded MagStripe reader was developed for configuration and flexibility with its country specific layout. The reader's output can be transformed to fit your specific application with the included configuration software, such as the format of the output or the selection of specific tracks on the ISO 7811 compliant cards.
